

**Environmental, Occupational Health & Safety Policy**

Aequs SEZ and AEQUS Group of companies are committed to build an organization that makes Environment, Health and Safety, a primary value in every activity, ensures safety and health of our stakeholders, prevents and conserves the environment, by minimizing the adverse impact of its processes, products and services.

This will be achieved by:

- Conserving natural resources, achieving energy savings and optimizing use of resources by reducing, re-using and re-cycling.
- Preventing environmental pollution by adopting proven technology and focusing on reduction of waste in all our processes.
- Promoting an environment where everyone is committed to maintaining a safe and healthy workplace to prevent Injury or ill health through any of our activities, products and services.
- Complying with all applicable legal and other requirements.
- Integrating EHS into all operations at all levels of the organization for continual improvement in Environmental and OH&S performance.

Rajeev Kaul
